MARSH AND BOG PLANTS

1-24

25+

PRICING IS AS FOLLOWS UNLESS MARKED OTHERWISE:

1 Gallon

ACORUS

VARIEGATED SWEET FLAG

*Acorus calamus 'Variagatus'*

Height:60cm Spread:30cm Zone:4  
 Shape:Clumping Foliage:Green/Cream  
 Semi-evergreen, perennial, marginal water plant. Sword-like sweetly-scented leaves are green with cream variegation and are flushed pink in the spring. Planting depth is water level.

CALLA

WATER ARUM

*Calla palustris*

May-June  
White

Zone:3

Height:25cm  
 Shape:Clumping Foliage:Dark Green  
 A spreading deciduous or semi-evergreen, perennial, marginal water plant. This plant features glossy, heart-shaped leaves and produces large white spathes in the spring that are usually followed by orange or red fruits.

IMPATIENS

SPOTTED JEWELWEED

*Impatiens capensis*

June-September  
Orange

Height:1.5m  
 Shape:Clumping Foliage:Green  
 A native annual that produces orange flowers and grows best in low-lying ditches and creek beds. 10cm pot

JUNCUS

SOFT RUSH

*Juncus effusus*

Height:1.5m  
 Shape:Clumping Foliage:Dark Green  
 A true rush that is tolerant of all conditions.

PONTEDERIA

PICKEREL WEED

*Pontederia cordata*

Late summer  
Blue

Height:75cm  
 Shape:Clumping Foliage:Glossy Green  
 Dense spikes of blue flowers emerge between lance-shaped glossy green leaves in late summer.

1-24

25+

POTAMOGETON

FLOATING-LEAVED PONDWEED

*Potamogeton natans*

Creamy Yellow

Height:1m-2m  
 Shape: Floating Foliage:Leathery Green  
 Zone:4

A submergent plant with opaque leaves both above and below the water.

SAGITTARIA

ARROWHEAD

*Sagittaria latifolia*

Summer  
White

Height:1.5m  
 Shape:Clumping Foliage:Glossy Green  
 Zone:5

Deciduous, perennial, marginal water plant with curved, soft, glossy green leaves and sprays of white flowers that appear in the summer.

SCIRPUS

SOFT STEM BULLRUSH

*Scirpus validus*

Summer  
White

Height:1.5m  
 Shape:Clumping Foliage:Glossy Green  
 Zone:3

Needs protection from wave action

TYPHA

NARROW LEAF CATTAIL

*Typha angustifolia*

May-July  
Brown

Height:1.5m  
 Shape:Upright Foliage:Green-gray  
 Zone:3

Defined by thin, green-gray foliage and velvety, hot dog-like seed heads. A good choice for erosion control, toxicant breakdown, and water gardens.

BROADLEAF CATTAIL

*Typha latifolia*

May-July  
Brown

Height:1.75m  
 Shape:Upright Foliage:Green-gray  
 Zone:3

This is very similar to the Narrowleaf Cattail but with a wider leaf, as the name would imply.

DWARF CATTAIL

*Typha minima*

May-July  
Rust-Brown

Height:60cm  
 Shape:Spreading Foliage:Dark Green  
 Zone:6

Deciduous, perennial, marginal water plant with grass-like leaves. Spikes of rust-brown plumes in late summer and cylindrical seed heads.
